PROFESSIONAL SUMMARY

AI/ML-focused software engineer skilled in building scalable ML systems, APIs, and data pipelines using Python, PyTorch, TensorFlow, FastAPI, and Docker. Strong in NLP, Computer Vision, data pre-processing, and deploying cloud-ready AI applications. Secured 3924th rank in Amazon ML Challenge 2025.

SKILLS

Programming

Python, Java, C, R, SQL, HTML/CSS, Algorithms, OOP, Git

AI / ML

Machine Learning, Deep Learning, NLP (LLMs/Transformers), Computer Vision

Frameworks

PyTorch, TensorFlow, Keras, scikit-learn, Pandas, NumPy, FastAPI, Flask

MLOps

Docker, Kubernetes, MLflow, AWS, Azure, GCP, CI/CD, Microservices

Software Engineering

System Design, API Development, Performance Optimization, Debugging

Soft Skills

Collaboration, Communication, Analytical Thinking, Problem-Solving, Innovation

PROFESSIONAL EXPERIENCE

AI Research Intern — Coding Jr. (Jun 2025 – Nov 2025)

Developed AI-based proposal automation tools and ML workflows.
Collaborated with ML engineers for dataset preparation & deployment.

Data Analytics Intern — Tata Group (Virtual) (Jun 2025 – Jul 2025)

Performed data analysis and visualization using Pandas, NumPy & Azure tools.
Validated ML models for reporting and enterprise use.

Advanced Software Engineering Intern — Walmart USA (Virtual) (Mar 2025 – Apr 2025)

Developed data structures (heaps) & algorithms in Java/Python.
Integrated ML modules through efficient API-based workflows.

TECHNICAL PROJECTS

CreativeGen — Generative AI Creative Platform

Developed a generative AI tool for automated retail creatives using CV/ML.

AI Dance Analyzer Server

Built a FastAPI + Docker pipeline analyzing dance movements using CV models.

EV Range Estimation (Machine Learning)

Developed regression models predicting electric vehicle range with environmental and behavioral data.

Sign Language Detection

Created a computer vision model to recognize and classify hand gestures, enhancing accessibility technology.

ACHIEVEMENTS

Secured 3924th rank in Amazon ML Challenge 2025.

VOLUNTEERING

National Service Scheme Volunteer (Sep 2022 – Sep 2024).
